

RoverTracker Quick Start Guide

Charging Connect charging cable to wall adapter and the RoverTracker's USB-C port (under rubber cover) to charge. Full charge in four (4) hours.

Setup Profile With an NFC-enabled cell phone, you can set up your Pet Profile for rescuers. You can also visit the web page here:

<https://my.rovertracker.com>

Locate & Call To locate your RoverTracker, call its phone number from a smartphone to receive a text message reply with its current location. Save your RoverTracker's phone number as a contact.

May take up to a minute to respond. Call may incur long-distance charges.

Alert Button Rescuers can press and hold the Alert Button (for 2-3 seconds). The tracker will buzz and then send a "Panic Alert" to you via email and text message.

Notice RoverTracker, like all GPS / cellular trackers, need these to work:

- 1) Clear view of the sky and being outdoors and under clear view of the sky to obtain locations
- 2) Sufficient cellular coverage (on 3G and 2G networks; 4G/LTE networks are not compatible).

Support Phone: +1 (213) 489-3019 Email: support@gtxcorp.com. Let us know your RoverTracker ID and Order ID to facilitate support.
